## Professional Summary

Undergraduate Computer Science & Engineering student (E-Commerce Technology) with a strong foundation in software development, programming collaboration, and building impactful technology solutions.

## Education

### VIT Bhopal University

Jun '28

*Bachelor of Technology (B.Tech) – Computer Science & Engineering (E-Commerce Technology)*

Relevant Coursework:

- Introduction to Computer Science
- Database Management Systems
- Data Analysis
- E-Commerce Systems
- Operations Management

## Technical Skills

Programming Languages: Python, Java, C++

Web Technologies: HTML, CSS (Basic – Learning)

- Portfolio Website: Built a personal portfolio website using HTML & CSS (link below)

Databases: SQL (Basic)

Tools & Platforms: MATLAB, MS Excel (Pivot Tables, Lookups), PowerPoint

Core Concepts: Software Development Fundamentals, Problem Solving, Basic Data Structures

## Portfolio

Portfolio Website: <https://akshansh2404.github.io/>

- Showcases skills, coursework, and personal projects
- Fully built using HTML & CSS with structured sections

## Certifications & Learning

- Programming Constructs – MathWorks
- MATLAB Onramp – MathWorks
- Python Essentials – Vityarthi
- AI & ML – Vityarthi
- Artificial Intelligence (Beginner) – Simplilearn
- Introduction to Programming Using Java – Vityarthi
- Industrial IoT Markets and Security — University of Colorado Boulder (Issued Nov 2025)
- Marketing Management-1 — NPTEL (Issued Nov 2025)

## Project Experience

### *Online Ambulance Booking Service (HTML + CSS, JavaScript)*

- Developed a web-based platform enabling users to book ambulances during emergencies.
- Implemented efficient request handling and basic workflow design to improve service response.
- Collaborated on requirement evaluation, feature planning, and documentation.
- Gained hands-on experience with real-world problem solving and software implementation.
